Tires; Only the "Hoosier" M45, M30 will be permitted for this Race of Champions Asphalt Modified event. The tires used for Qualifying must be purchased at the event. Tires will be marked at purchase. "Tire scuffing" will be permitted for this event. The four (4) tires that are introduced at the start of the green-white-checked timed hot lap session must be used on the car during the timed hot lap session, the qualifying race and the feature. Tires that are flat or damaged severely as determined by Race of Champions Officials may be changed. In the event of a flat and/or damaged tire, the tire must remain on the working side of the pit wall for inspection and for the tire change to occur without penalty. If the tire crosses on to the non-working side of the wall, a penalty may be issued. For this event, four (4) additional "Change Tire(s)" will be permitted for competition, one (1) per position on the car or any competitor may choose not to change the left front tire only and use one (1) of the four (4) change tires as an additional right side tire. The competitor must declare this prior to the start of the 72nd Annual Race of Champions 250 and have the tire marked for use as a change tire. The "Change Tire(s)" will only be permitted to be introduced during the feature event after the car has completed one green flag lap. Competitors may change the position of the tire(s) on the vehicle (left rear to left front / right rear to right front). A tire may be replaced with a tire previously used in the feature race, provided the tire is a marked tire for the event. In the event a competitor must qualify through a B-Main, that competitor may introduce one (1) new tire that will be marked prior to the B-Main. If that competitor qualifies, they must start the feature on their original qualifying tires. In an effort to maintain and prevent tire alteration if any tire is required to be analyzed, the wheel and tire will be impounded, the payout will be held for the position in which the car finished with the impounded tire. In the event that tire is deemed altered, the payout for that position will be divided equally and awarded to all finishing positions for the event (26 starting positions) minus the cost of the tire analysis. Finishing positions in the race will not be altered based on a penalty. Only Race of Champions Officials will determine if a tire requires analysis. Tires may not be protested. Any competitor found with tires that have been altered will be suspended for a period of 365-days from any Race of Champions event, including, but not limited to the 72nd Annual Race of Champions.

- All restarts will be in the restart area designated in the driver's meeting.

- All restarts until the completion of lap 225 will be double-file with lead lap cars to the front - lapped cars will drop to the inside under caution and rejoin the field beginning after the last car on the lead lap in their order of running on the race track at the time of the caution.
